Working on World Bank energy projects in Burundi and watching improved access to electricity unfold, has given me a sense of optimism about

Access to electricity (% of population) in Burundi was reported at 11.6 % in 2023, according to the World Bank collection of development indicators, compiled from officially recognized sources.

Only 10% of the population has access to electricity in Burundi, a low rate compared to other countries of the East African Community. The Energy Strategy and Action Plan provides a strong platform for
